- ປະຊາກອນ 24,143 ຄົນ ໃນນັ້ນ ແມ່ຍິງ 11,935 ຄົນ ທີ່ໄດ້ຮັບຜົນປະໂຫຍດຈາກໂຄງສ້າງພື້ນຖານທີ່ທົນທານຕໍ່ການປ່ຽນແປງດິນຟ້າອາກາດ; ແລະ

- 5,351 ຄົວເຮືອນຈະມີນໍ້າປະປາໃຊ້ຕະລອດ 24 ຊ.ມ

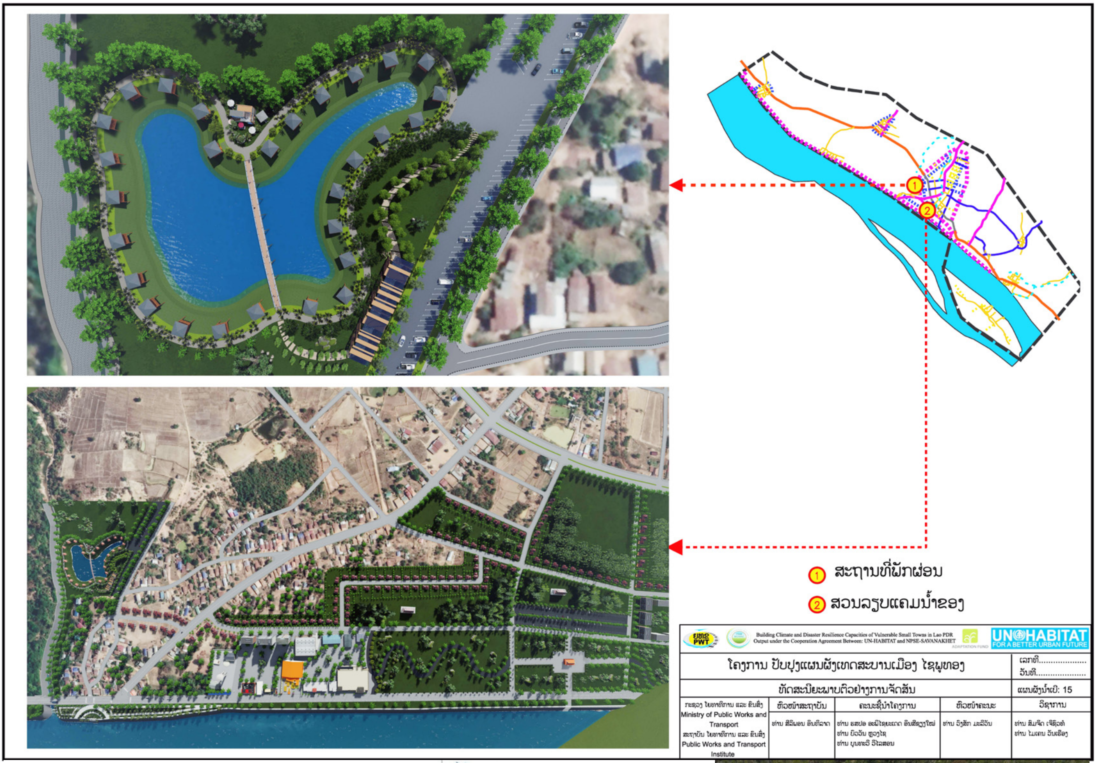
“BUILDING CLIMATE AND DISASTER RESILIENCE CAPACITIES OF VULNERABLE SMALL TOWN IN LAO PDR”

Sayphouthong smart town planning which integrates climate change adaptation into socially inclusive infrastructure, spatial planning and land-use management was adopted by Savannakhet Provincial Assemble on 15 September 2023. New resilient water infrastructure 3,600m3/day capacity with riverbank protection, water raw intake, distribution network and household water connection constructed in response to climate change impacts, including variability, for Sayphouthong Town in Savannakhet Province:

- 24,143 people of which 11,935 are women benefiting from climate change resilient infrastructure; and
- 5,351 Household connection

Adaptation solution:

- 24/7 Water Supply



UN-HABITAT LAO PDR

UN-HABITAT's innovative and unique working model used in their projects has been formulated to involve and empower the communities that they work with. This means that the communities are not only involved in the projects undertaken in their towns and villages, but also that the impacts of these projects will continue to show long after they have been completed.
